

SWAS

Starshift WA Sender

Message hundreds of customers on WhatsApp at once

Chrome Extension

Easy to use

No second number

Full walkthrough and demo

The problem

What sending by hand actually costs you

1

You open one chat at a time

200 customers means 200 copy-pastes. Half a day gone.

2

You cannot put the name in

Everyone gets the same message. Without a name, most people skip it.

3

You never know how many landed

Who got it, who did not, where it failed - no record at all.

4

The fear of getting blocked

Fire messages off too fast and WhatsApp can shut the number down.

**All of it
on one screen**

**Starshift WA Sender
does this for you**

What it is

So what is this, exactly?

A Chrome extension

Messages go out through the WhatsApp already on your computer.

No second number needed

Your own WhatsApp number. No per-message API bill.

Takes an Excel list as it is

An Excel file or Google Sheet with names and numbers works straight away.

Any language you like

Marathi, Hindi, English - there is a translate button too.

SWAS Starshift WA Sender

Login
Use the mobile number and password given to you by your seller.

Mobile Number

+91 (IN) ▼ 7588258599

.....

Login

[I have an activation code](#)

[Forgot password?](#)

Login screen - the number and password we give you

How to start - only three steps

1

Install the extension

Drop the file we send you into Chrome. One-time job.

2

Log in

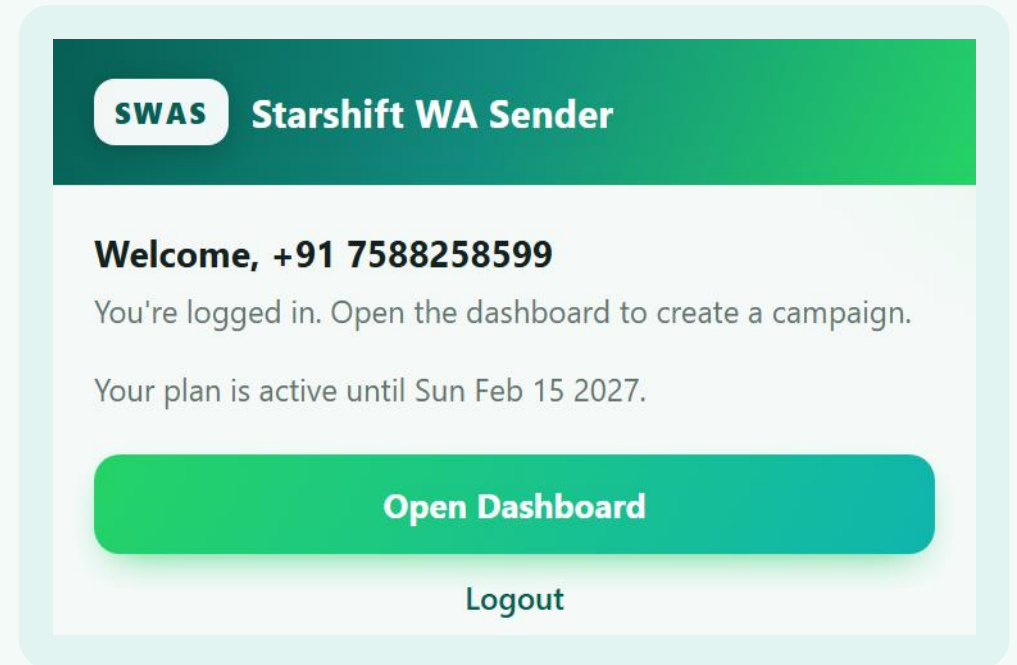

Enter the mobile number and password we gave you.

3

Open the dashboard

Hit Open Dashboard - everything else happens there.

One thing to remember: keep a WhatsApp Web tab open while messages are going out.

What you see once you are logged in

The map

Six sections on the dashboard - what sits where

1

New Campaign

Where you build and send a message

2

Reports

How many sent, how many failed, Excel report

3

Extract

Pull chats and numbers out into Excel

4

Chatbot

Auto-reply when a keyword shows up

5

Quick Replies

Your stock answers, one click away

6

Unsubscribers

People who asked to be left alone

The rest of this deck walks these six in order.

1

Sending a campaign

New Campaign and Reports - the daily work

1. Who

2. Message

3. File + time

4. Pace

5. Report

Pick who gets the message

1. Recipients

ContactGroupNumbersSaved Lists

Add a single number (no need to save it in your phone), or import a list.

+91▼राजेश पाटील

9822011223

+ Add New

or upload Excel / CSV

Columns: Sr No, Name, Mobile Number, Country Code, Group Name, Custom1, Custom2. [Download sample template.](#)

Imported 248 recipients from customers.xlsx

Selected recipients (248)

Save as listClear all

#	Name	Target	Source	Fields	Lists	
1	राजेश पाटील	919822011223	Excel	city=पुणे	Diwali	×
2	सुनीता जोशी	919960445566	Excel	city=नाशिक	Diwali	×
3	अमोल देशमुख	917028080364	Excel	city=नागपूर	Diwali	×
4	Shop Owners Group	Shop Owners	Group	-	-	×

248 customers imported from Excel in one click

Contact / Group

Your WhatsApp chats and groups show up right here. Hit Sync and the list loads.

Numbers

Type one number by hand, or import an Excel / Google Sheet list. No need to save numbers in your phone.

Saved Lists

Build lists of your regulars - one click next time.

Step 2 - New Campaign

Write the message - the name fills itself in

Type {{name}} and the name appears

Everyone gets their own name. Your own columns like {{city}} work too.

Bold, italic, lists, emoji

Same formatting as WhatsApp. The preview updates as you type.

Save it as a template

Write it once, reuse it whenever.

Translate into 15 languages

Marathi, Hindi, Gujarati, Tamil - one button.

The screenshot shows the '2. Compose Message' interface. At the top, there's a dropdown menu set to 'Diwali Offer' with 'Save as template' and 'Delete template' buttons. Below this is a 'Message' section with formatting icons: Bold (B), Italic (I), Underline (U), Text color (A), List (List), 1. List, Quote, and an emoji icon. The message text area contains: 'नमस्कार {{name}}, स्टारशिफ्ट स्टोअरकडून दिवाळी ऑफर! *25% सूट* सर्व वस्तूंवर. तुमच्या {{city}} शाखेत आजच भेट द्या.' Below the text area is a 'Placeholders (click to insert):' section with buttons for {{name}}, {{mobile}}, {{city}}, and {{group_name}}. There's a language dropdown set to 'Marathi' and a 'Translate message' button. At the bottom is a preview section titled 'Preview for: राजेश पाटील (919822011223)' showing the rendered message: 'नमस्कार राजेश पाटील, स्टारशिफ्ट स्टोअरकडून दिवाळी ऑफर! 25% सूट सर्व वस्तूंवर. तुमच्या पुणे शाखेत आजच भेट द्या.' and a 'Reply STOP to unsubscribe' link.

The preview below shows exactly what lands

Step 3 - New Campaign

Attach a file, pick the time

Send photos, PDFs, a catalog

Image, video, PDF, Excel - with a caption if you want one.

Send now or schedule it

Set a date and time; it goes out on its own as long as the PC is awake.

Repeat weekly or monthly

Set it once and it runs again by itself.

Give the campaign a name

"Diwali Offer Blast" - easy to find later in Reports.

3. Attachment (optional)

Choose file

No file chosen

Caption for attachment

{{(name)}}, आमचे नवीन दिवाळी कॅटलॉग बघा

diwali-catalog.pdf (1.4 MB)

Remove attachment

4. Schedule

☐ Send Now

☒ Schedule for later

Date

18-10-2026

Time

10:30

Repeat

Every week

Repeat until (optional)

31-12-2026

5. Campaign

Campaign name

Diwali Offer Blast

Recipients on the Unsubscribers list are skipped automatically.

Save & Start / Schedule Campaign

18 October, 10:30 AM - repeating every week

Keeping your number out of trouble

Put a gap between messages

Fixed, or a range. A range looks more human, so it is the safer choice.

Send in batches

25 messages, then a 3-minute pause, then the next 25.

STOP means skipped

Every message carries an unsubscribe line. Anyone replying STOP drops off the list.

● Sending pace

Time gap between messages

☐ Fixed

☒ Random between **(Recommended)**

From 20 To 60 sec

☒ **Add batching (Recommended)**

Send in batches of

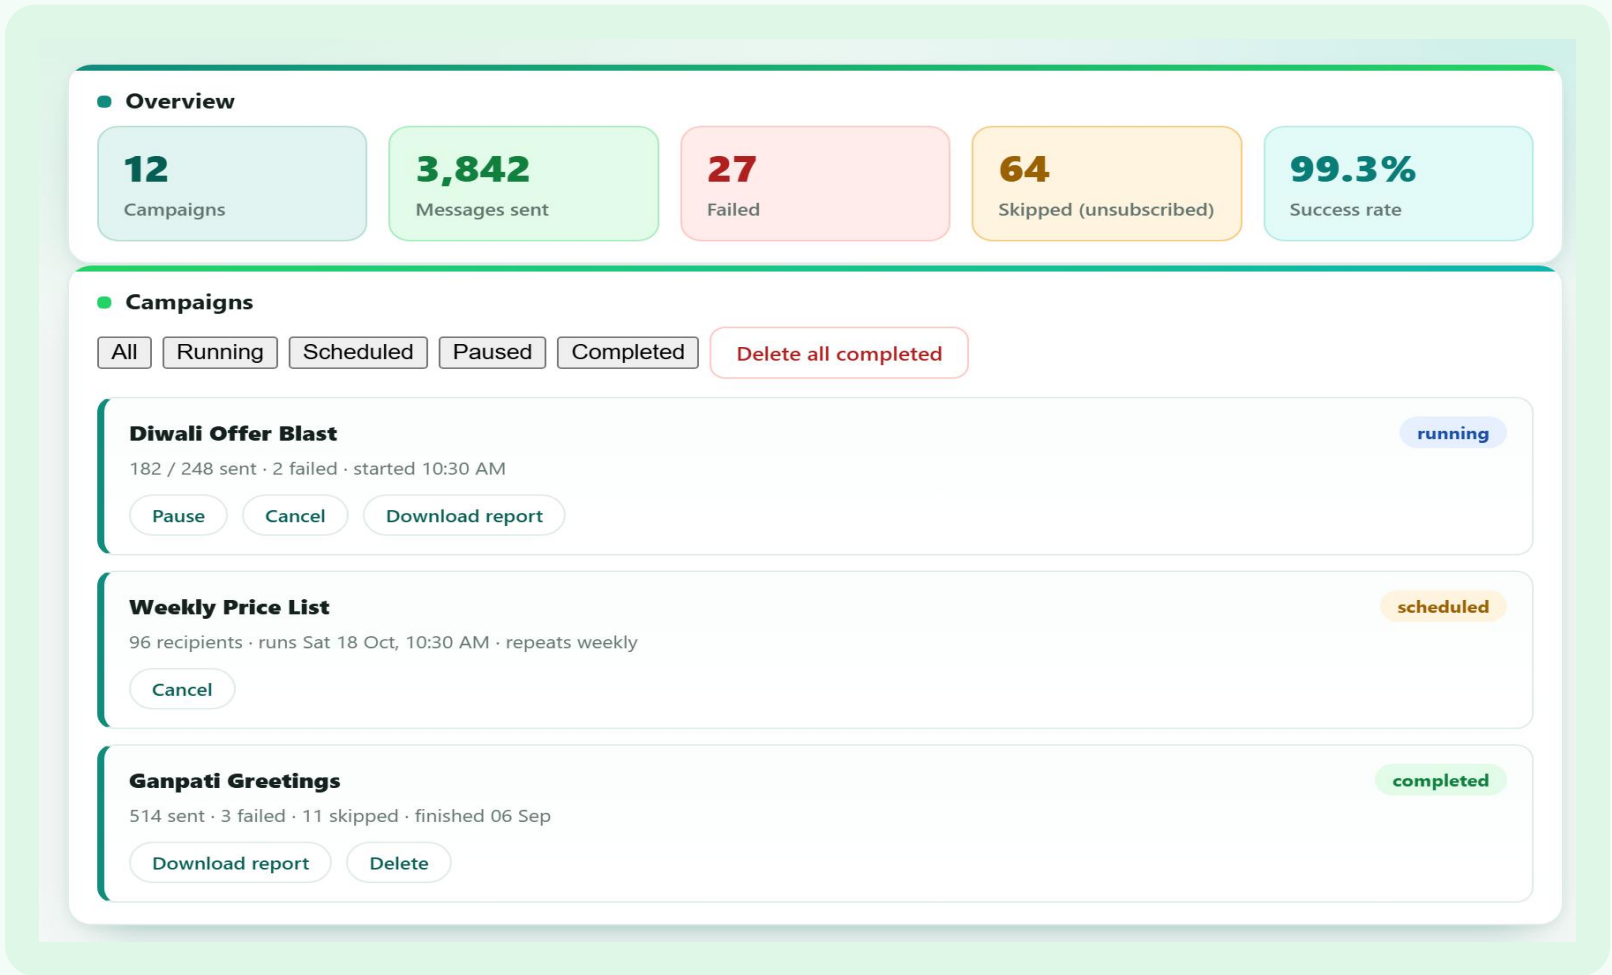

25 messages

Pause between batches

180 sec

20-60 seconds between messages, a 3-minute break every 25

You know straight away how many landed

Every number at a glance

Sent, failed, skipped - all across the top.

Pause it, resume it

A running campaign can be paused or cancelled mid-way.

Download the Excel report

The full list of who got it, in a file.

2

Automatic replies

Chatbot, Quick Replies and Unsubscribers

Chatbot

Quick Replies

Unsubscribers

A keyword arrives, the reply goes out

Pick the word, pick the reply

Customer types "price" and your price list goes out. You choose "contains" or "is exactly".

It works while you are away

A late-night enquiry gets an answer immediately. Nobody is left waiting.

It has limits, on purpose

Groups are left alone, chats matching no rule stay unread, and the bot pauses while a campaign runs.

The screenshot displays the WhatsApp chatbot configuration interface. It is divided into two main sections: 'Chatbot auto-replies' and 'Rules'.

Chatbot auto-replies: This section includes a description: 'When a chat gets a new message that matches a rule, the bot opens that chat in WhatsApp Web and sends your reply. Keep a WhatsApp Web tab open.' Below this, there are two checked options: 'Enable chatbot' and 'Add people who reply STOP or UNSUBSCRIBE to the Unsubscribers list'.

Rules: This section allows for configuring specific rules. It includes a 'When the message' dropdown set to 'contains' and a 'Keyword' input field containing 'price'. Below these is a 'Reply with' text area containing the message: 'आमची किंमत यादी: starshift.in/price. अधिक माहितीसाठी कॉल करा 70280 80364'. A green 'Add rule' button is located below the text area.

At the bottom, there is a list of three existing rules, each with a 'Delete' button:

- Rule 1: 'contains "price"' with the reply 'आमची किंमत यादी: starshift.in/price ...'
- Rule 2: 'contains "वेळ"' with the reply 'दुकान सकाळी 10 ते रात्री 9 उघडे असते.'
- Rule 3: 'is exactly "STOP"' with the reply 'तुम्हाला यादीतून काढले आहे. धन्यवाद!'

Three rules - price, timing, STOP

Quick Replies

Your stock answers, one click away

Quick replies

Saved answers for common questions, prices, catalog or support steps. On WhatsApp Web, open a chat and click the green ⚡ button (bottom right) to insert one into the message box.

Price, timing, address, delivery - write once, use forever

Not the same as the chatbot

The chatbot sends by itself; a Quick Reply you pick and send yourself - you stay in control.

It lives on WhatsApp Web

Open a chat, click the green button at the bottom right, pick an answer - it drops into the message box.

It saves the typing

No more typing the same answer twenty times a day.

Unsubscribers

People who opted out never hear from you again

● **Unsubscribers (14)**

People on this list are never messaged by a campaign. Enter one per line: a mobile number with country code (e.g. 918873520027) or a chat / group name.

919822011223

919845112233
Added by hand

Remove

Anyone replying STOP lands here on their own

It fills itself

Whoever replies with the keyword under your message (STOP) is added here.

You can add people by hand

A number or a chat name - one per line.

Every campaign skips them

No campaign will message anyone on this list - you do not have to watch for it.

A list of mobile numbers in Excel

Name and number together

Every ticked chat's name, number, and whether it is a contact or a group - in one file.

Even the hidden numbers

WhatsApp hides some chats' numbers - those chats get opened so the number can be read.

Group members

On the Group tab hit "Members to Excel" - everyone in that group lands in a file.

Your next campaign list, ready

Feed the same file back into the Numbers tab and the loop closes.

whatsapp_numbers.xlsx
